RAILROADS MADE DEFENDANTS IN DAMAGE SUITS

Widow of Man Killed on Crossing Asks \$30,000; Daughter \$15,000.

Following a collision between a buggy and a G. H. special train in East El Paso February 8, comes two damage suits, one of which is filed in the first and the other in the 24th district court.

Mrs. Agnes Stevens, widow of Isaac Weister Stevens, who was killed in the accident, sues for \$30,000 damages representing herself, her children, Mary and Edna, and Almond, a grandchild. Henry Stevens, father of the deceased, is also a plaintiff in the suit, being representative of the family.

He is 92 years old. This suit is filed in the 24th district court.

Elma Barrett, through her husband, sues the G. H. Railroad company, \$15,000 damages. She occupied the buggy with her father, L. W. Stevens, and when the train struck it, she was thrown out, sustaining injuries. She alleges in the petition that these injuries leave her a cripple for life.

In both petitions it is alleged that the train was running at an excessive rate of speed.

Two other suits have been filed in the 24th district court. Benigno Priemero sues for \$15,000 damages because he was thrown 50 feet in the air by a dynamite explosion at Tecolote, N. M., on December 22, 1929. The defendant is the El Paso & Northwestern Railroad company, owner of a quarry in which the plaintiff was employed.

ROCK ISLAND OPENS OFFICES Locates a General Agent in El Paso to Look After Business.

The Rock Island, through R. R. Seeds, its traveling freight agent, will open offices at 515 San Francisco street, Mr. Seeds, when seen, said there would be no change in the general affairs of the company, and that the El Paso & Northwestern will continue to handle its business as heretofore.

Mr. Seeds comes from Denver, where he has been connected with the Rock Island since 1924, and will move his family to El Paso.

In establishing an office here, the Rock Island is only following its policy of maintaining offices in all the principal cities and it has no bearing whatever on the relationship previously existing between the El Paso & Northwestern.

AFRAID OF GHOSTS

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a hollow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whiskey or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

W. A. TURNER, GENERAL FREIGHT AGENT OF THE SOUTHERN RAILWAY COMPANY, PASSED THROUGH EL PASO TODAY ON HIS WAY TO CHICAGO, TO ACCEPT A POSITION WITH THE CHICAGO GREAT WESTERN RAILROAD.

BUY CRUTCHES FOR INJURED BOY

School Children of Juarez Help Paymate Instead of Buying Candy.

It has only been a few days since the little children of the girls' official school in Juarez walked past the railroad tracks on their way to dinner and saw the body of a little boy mangled by the iron wheels. It has only been a little time since 10-year old Jesus Garcia met with the accident which will cripple him for life.

But already the little girls of the big adobe school, aroused by juvenile compassion, have acted. A contribution was begun among the girls, and now it has spread to the boys' school and nearly every school child in the Mexican city has donated. Only \$40 has been secured to buy crutches and crutches for the injured school mate, but that means many 5 and 10-cent pieces, and much abstinence from childhood's dissipation—candy.

And so like nearly all great reforms, the women began it. Juvenile women, true, but women just the same.

WEDNESDAY LAST FLIGHT OF C. K. HAMILTON, THE KING OF THE AIR

(Continued from Page One.)

R. E. Allen will race his Excelsior motorcar against the aeroplane.

Hamilton's daring feat will make the blood boil with enthusiasm and excitement. This is El Paso's first opportunity to see the man bird, and probably the last in a long time.

A large force of policemen will be stationed in the outer field to keep it clear and keep off "the rail birds." It will be absolutely necessary to enter the park to see the most interesting part of the exhibition—the starting, the stopping, the races with the automobiles and the fancy figures which the aviator will perform. These cannot be seen "over the fence."

World Record Machine.
Hamilton uses a Curtis eight cylinder biplane, the same machine which captured all speed prizes at the great French meet at Rheims, at Los Angeles and at Phoenix, Ariz.

Hamilton's managers offer to wager \$5000 or \$10,000 that he can beat any aviator in the world in a heavier than air machine in a 10 or 20 mile race.

To Try for New Records.
Hamilton will race 19 miles against an automobile at Washington park Wednesday. He will also race five miles against an automobile and five miles against a motorcycle.

He will also make an effort to break all records for height and will try to break his own record for a mile—1:11—the record of the world, and will do figure eights and other seemingly impossible stunts.

Hamilton will give his famous "Hamilton glide," in which he ascends to a height of 1000 feet, shuts off his machine and shoots down almost in a straight line to the point of starting in front of the grand stand. His managers claim that he is the only aviator in the world who performs such a feat.

Flies Over the Sea.
Following the Los Angeles meeting, Hamilton made a flight over the bay at San Diego, Cal., and remained in the air longer than it took Bleriot to cross the English channel. He also made a night flight over the bay.

At Fresno, following the San Diego exhibition, Hamilton established a new world's record for speed, covering a mile in 1:11 flat. He hopes to beat that record with his El Paso flight.

Silver Threads Amongst the Gold

"Darling, I am growing old, silver threads amongst the gold same upon my brow today, life is fading fast away." Thus runs one of the old, old songs. There is always a note of sadness and regret attached to the coming of gray hair prematurely, as if the hand of time were ruthlessly checking off the pleasant hours of youth and laughter. Recently after remedy has been sought for the restoring of gray hair to its natural color but the one that has stood the test of years and proved the most pleasant and reliable, is HAY'S HAIR HEALING. This time-tried preparation succeeds where others fail. It is one of these safe and dependable remedies that it is a pleasure to recommend. HAY'S HAIR HEALING restores gray hair by furnishing to the hair roots, the exact nourishment that revives and gives them new life and vigor. It is not a dye. It works pleasantly and effectively. All reliable druggists sell it for 50c, and a dollar. Booklet containing further information on the "Care of the Hair" will be forwarded for 2c. by the Philo Hay Specialties Co., 30 - 1st St., Newark, N. J., A. S. A. Kelly & Pollard.

COMMISSIONERS INSPECT ADDITION TO JAIL

Court Approves Bylaws of Water Users' Association Relative to Franklin Canal.

Everything in the new jail was found in good shape when the county commissioners visited the institution this morning. The cells and all the walls are painted white so that dust may be easily detected. Each cell is fitted with a toilet and washstand and there is a bath on each floor as well as a shower bath in the rear court-yard.

The cells may be opened either separately or all at one time by moving a lever at the end of the cells and may also be opened separately with a key.

The new addition is light and airy and 104 prisoners can be accommodated, there being four cells to a cell and two dark cells. Electric lights along the corridors are operated by pushbuttons at the end of the corridor so the jailer need not enter the cells.

Prior to their visit to the county jail the commissioners ratified the bylaws of the Water Users' association relative to the Franklin canal, which are to be presented to the government.

County clerk Park Pitman was instructed to have the report of the county treasurer published, this report to be made up from the four last quarterly reports.

The map of the Sierra Blanca-Hot Springs road prepared by county surveyor Eubank was approved.

SPECIAL SONG SERVICE.

Las Cruces, N. M., Feb. 22.—Next Sunday evening at the Methodist church a special song service will take the place of the regular evening service. Some of the best talent of the Las Cruces Music club belong to the Methodist choir and a good program is assured.

Take Off the Fat Where It Shows

Most women suffer much humiliation because of great quantities of fat, so located that, no matter how they dress, everybody sees that they are abnormal. This is the day of the slender figure, and fat women are simply out of touch either in business or social affairs. Women may not know it, but men when they see a fat woman pass them on the street make all manner of sympathetic remarks about her. They do not mean to be unkind or to seem unmanly, but it is natural for a man to dislike fat on a woman. When fat shows the most there is where it must be removed, and as quickly as possible. The hot weather dresses seem to be made for the fat woman's misery and the slender woman's delight. They expose all the charms of woman and her ugliness as well. Exercise and diet will not remove fat. This has been proved. The famous Marmola prescription which has met with such phenomenal success and has so many of our society women as its sponsors, is now being sold in tablet form to meet the demand of the public for this style of treatment. These little tablets go into your system just like food. They stop the stomach and digestive apparatus from producing fat and reduce the fat upon the body at the rate of from 12 to 15 pounds a day. They are harmless and can be carried in your purse and taken even after you have indulged in a hearty meal away from home. They are sold at all drug stores 25 cents a case or if you prefer you may write the Marmola company, 727 Farmer Bldg., Detroit, Mich.

Delgado said that he heard him break into the store and chased him for several blocks before he captured him.
